EDUCATION

Master of Computer Applications (MCA)

Anna University — CGPA 9.05/10
(Gold Medalist & Rank Holder)

2010 - 2013

Bachelor of Science (Computer Science)

MS University — Distinction (87.6%),
4th Rank Holder

2007 - 2010

CERTIFICATIONS

- PL-400 – Power Platform Developer Associate
- PL-200 – Power Platform Functional Consultant
- PL-100 – Power Platform App Maker
- PL-900 – Power Platform Fundamentals
- MB-900 – Dynamics 365 Fundamentals

PROFESSIONAL SUMMARY

Technical Consultant with 8+ years of experience in Microsoft Dynamics 365 CE, Power Platform, Data Migration, and QA Automation. Strong hands-on expertise in Plugins, Workflows, Custom Entities, Business Process Flows, TypeScript, PCF development, and Dataverse API integration. Skilled in data management, including data migration such as Vivantio to Dynamics 365 CE, data mapping, validation, and bulk processing.

Experienced in delivering end-to-end CRM implementations and worked within Agile methodology and strong exposure to Scrum practices in solving complex technical issues, and supporting global customers across Sales, Field Service, and internal customer service operations. Built the company's Playwright automation framework foundation, now used to scale QA automation.

PROFESSIONAL EXPERIENCE

TECHNICAL CONSULTANT

Annata Dynamics, Malaysia | *Jan 2019 – Present*

Dynamics 365 CE Development & Customization

- Developed Plugins, Custom Actions, Workflow Assemblies, and logic extensions.
- Built advanced JavaScript customizations for form automation, UI behavior, and validations.
- Created and configured custom entities, forms, views, dashboards, and security roles.
- Built automations through Business Process Flows, Power Automate flows, and custom logic.
- Integrated systems using Dataverse Web API, XRM Tooling, and REST-based connectors.
- Managed solution deployment across environments.
- Provided functional + technical support across Sales, Field Service, and internal Customer Service teams.

PCF Development

- Built custom PCF controls to enhance model-driven app UX.
- Integrated PCF with Dataverse tables and business rules for interactive components.

CORE TECHNICAL SKILLS

Dynamics 365 CE

- Plugins, Custom Workflow Assemblies
- JavaScript/TypeScript Customizations (form scripts, validations, ribbon commands)
- Custom Entities, Fields, Views, Dashboards
- Business Process Flows (BPF)
- XRM Tooling, Dataverse Web API, Postman
- Security roles, Teams, Field Security Profiles
- Solution Management (Managed/Unmanaged)

Power Platform

- Power Apps: Model-driven & Canvas
- Power Automate
- Power BI dashboards
- Dataverse design & relationships

Development & Integration

- C#, VB.Net, ASP.Net
- REST API / Dataverse API
- SQL Server
- HTML, CSS, JavaScript, TypeScript, reactjs
- OOP design

QA Automation

- Playwright automation POC (company-wide foundation)Power Automate
- Designing test scripts & reusable automation components
- Regression & functional testing
- Test documentation

AWARDS & ACHIEVEMENTS

- Gold Medalist (MCA)
- University Rank Holder (MCA & BSc)
- Recognized every semester for academic excellence
- State-level Photoshop workshop contributor

Customer Project – "Speedy"

- Delivered customizations and development for the Speedy customer project, enhancing existing Dynamics 365 CE functionality based on business needs.
- Worked on change requests involving updates to forms, business rules, fields, and entity configurations.
- Enhanced and modified Plugins, Workflows, JavaScript, and Power Automate flows to support requested business logic.

Data Management & Migration

- Performed data migration for internal from Vivantio → Dynamics 365 CE, including extraction, mapping, transformation, validation, and import.
- Migrated data from Vivantio, legacy databases, and Excel/CSV files to Dynamics 365 CE Customer Service.
- Designed and developed ADF pipelines using Copy Activity, Mapping Data Flows, Data Transformation, and Wrangling Data Flows.
- Managed entity relationships and reference data during migration to maintain data integrity.

QA Automation

- Built Playwright automation POC, which became the foundation for the company's automation framework currently.
- Conducted POCs on both EasyRepro and Playwright, performing deep-dive comparisons to determine the most suitable automation approach.
- Created reusable automation scripts, components, and configuration standards based on the selected tool.
- Trained the team, enabling regression and functional test automation adoption.

SOFTWARE DEVELOPER (Freelancer)

India | *Jan 2016 – Nov 2019*

Developer

- Developed applications using VB.Net, C#, ASP.Net, and MS SQL Server.
- Built stored procedures, optimized queries, and performed backend development.
- Designed complete project architecture and implemented business logic.
- Performed UI development (HTML/CSS/JS) and unit testing.
- Delivered graphic design elements using Adobe tools.

Self-Initiatives

- Explored Figma (wireframing, prototyping) independently, enhancing my ability to understand UI workflows, user journeys, and how design decisions align with business needs.
- Learned Canva to strengthen visual communication skills and improve understanding of layout, branding, and design clarity.
